

# CALL FOR PAPERS

**ICBMB 2018**  
**Jan 15-16, 2018**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMB 2018 : International Conference on Bioinformatics and Molecular Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinformatics and Molecular Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biochemistry  
Bioengineering  
Bioinformatics  
biological data mining and  
visualization  
biological morphology  
biomedical image processing  
biomedical systems modeling,  
simulation and visualization  
Biomedicine  
Bio-ontology and semantics  
Biophysics  
Brain informatics  
Cell Adhesion Molecules and Matrix  
Biology  
Cell Biology of Immunity

Cell Migration in Biology  
Chromatin Dynamics and Cancer  
Clinical Drug Development  
Computational and Systems Biology  
Computational drug discovery  
Computational genomics  
Computational modeling, analysis  
and simulation of complex  
biological systems  
Computational proteomics  
Computational tools for sequence  
analysis  
Developmental biology  
DNA Damage Responses and Cell Cycle  
Regulation  
Dynamic modeling of cell processes  
Dynamics of complex biological  
systems
