

CALL FOR PAPERS

ICPEC 2018
Mar 26-27, 2018
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEC 2018 : 20th International Conference on Power Electronics and Controllers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Electronics and Controllers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power electronics

Devices

Single-phase half-bridge

Single-phase full-bridge

Three-phase voltage

Current source inverters

Simulations of power

Multilevel inverters

Electromagnetism

Microelectronics

Power electronics in

Power engineering

Power systems

Electric power

Power-system protection

Smart grid technologies

Atmospheric electricity

Renewable and

Energy economics

Energy and economic

Economics of energy

Energy policy

Applications of energy
