

CALL FOR PAPERS

ICASSCM 2018
Jul 23-24, 2018
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASSCM 2018 : 20th International Conference on Actuarial Science and Supply Chain Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Actuarial Science and Supply Chain Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Operations research and
Decision analysis
Environment, energy, and
Financial engineering
Manufacturing, service
Policy modelling and
Revenue management
Stochastic models
Assignment problem
Decision analysis
Dynamic and linear
Inventory theory
Optimal maintenance
Optimization
Real options analysis
Stochastic processes
Systems analysis
Systems thinking
Statistical mechanics
Medical statistics
Queuing theory and stock
Mathematical statistics
Medical statistics
Non-parametric

Operations research
Probability
Experimental design
Time series analysis and
Mathematical foundations
Numerical solution of
Complex function theory
Calculus of variations
Probability
Regression analysis
Wavelets and data
Agricultural, applied and
Biostatistics
Business statistics
Computational statistics
Computer simulations
Demographic statistics
Econometrics
Educational statistics
Environmental statistics
Epidemiology industrial
Management science
Psychometrics
Quantitative methods
