

CALL FOR PAPERS

ICMCMS 2018
Aug 13-14, 2018
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCMS 2018 : 20th International Conference on Mathematics, Computation and Mathematical Statistics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematics, Computation and Mathematical Statistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences
Statistics
Mathematical statistics
Descriptive statistics
Inferential statistics
Statistical computing
Computational statistics
Statistics, estimators
Probability and
Null hypothesis and
Error
Interval estimation
Significance

Linear algebra
Mathematical methods
Computational methods
Scientific observations
Computational science
Analysis
Applied mathematics
Combinatorics
Computational
Complex numbers
University maths
Complex analysis
